CHAIRMANS NOTE

"A thousand mile journey starts with one step." This timeless quote serves as a poignant reminder of the humble beginnings of El Alfy, a company that has risen to become a leader in the natural stone contracting industry.

It all started in 1987 with the establishment of its first stone processing facility, which, with the guidance of Almighty Allah, has since expanded to a network of seven vertically integrated facilities. These facilities are dedicated to upholding the highest standards of quality control, ensuring that every project is completed to the fullest satisfaction of the client. With a production capacity of 800,000 square meters annually, El Alfy is renowned for its ability to accentuate the natural beauty of stones through efficient processing and advanced technology.

The company's significant investments have allowed it to master the art of sourcing these delicate materials, resulting in the creation of truly stunning works of art. As a leader in its field, El Alfy has the capability to undertake various global development projects, always striving to keep its clients involved in the design process from the very first steps.

The establishment of the Saraya facilities has elevated the company's presence in the general contracting industry, allowing for the in-house execution of all aspects of development projects. Manufacturing is a passion for the company, and its realization of this dream has brought a new level of success and recognition within the industry.

Chairman and Creative Director

Eng. Tarek El Alfy

SHERATON RENOVATION
Qatar

COMPANY PROFILE

EL ALFY is one of the leading multinational companies in the business of natural stone manufacturing, supplying and contracting. Over the last decade we have worked closely with a wide variety of architects, consultants and project managers on a range of new construction and renovation projects.

All our projects are vastly diverse in terms of budget and style and we are recognized worldwide for the quality of our work. Our Factories are a community of engineers, designers and Project managers who bring creativity and talents to the Project. This expertise and experience in an International field, combined with the unique background of the principals, enables EL ALFY to produce innovative products of the highest quality.

By working together with our clients and following the principles of premium service, quality, sustainability, safety and scheduling, we continue to strengthen our excellent reputation in the marketplace as a cost effective, responsive and quality organization.

Our Branches in Qatar, UAE, Turkey, Italy and Egypt supports each other in operations as well as working independently on equally challenging projects.

Above all, it is our lateral thinking, ability and years of experience that makes EL ALFY one of the leaders in the stone manufacturing Industry.

CAPABILITY STATEMENT

At the heart of El Alfy's philosophy is a commitment to providing premium quality natural stone products and exceptional customer service. As a leading natural stone manufacturer, supplier, and contractor, we are known for our extensive range of products, including marble, granite, onyx, limestone, and travertine, suitable for a variety of applications.

Our custom fabrication and installation services ensure that our customers receive a complete solution that meets their exact specifications, while our strict quality control procedures guarantee the highest standards of quality.

With a history of working with the world's most famous designers, consultants, and contractors, El Alfy has established a reputation for delivering projects on time and on budget. Our focus is on building long-term, sustainable relationships with our valued clients and we take pride in our ability to deliver exceptional results.

OUR PEOPLE

Our employees are the foundation of our success and the cause for our sustained expansion at El Alfy. Our staff is made up of trained individuals that are committed to offering excellent customer service and high-quality products. With a wealth of knowledge and expertise, they are devoted to working closely with our customers to understand their individual needs and accomplish their intended goals. Building strong, meaningful, and long-lasting connections with our workers is a major focus, and we are delighted to have a devoted workforce that has been with us for many years. Our objective is to foster a welcoming and inclusive work environment in which our workers may attain their full potential and prosper. By investing in our people, we ensure that we continue to deliver outstanding products and services to our valued customers.

MANAGEMENT CAPABILITY

At El Alfy, we are committed to providing the highest level of management in all aspects of our natural stone manufacturing and supply business. We understand that the success of our company is directly linked to the health and safety of our employees, the quality of our products, our commitment to the environment, and our financial strength.

HEALTH & SAFETY:

At El Alfy, the health and safety of our employees, customers, and the communities in which we operate is of paramount importance. We have implemented strict health and safety protocols and procedures to ensure the well-being of all those involved in our operations. These protocols include regular training and education for our employees on safety procedures, as well as ongoing safety audits and inspections to identify and mitigate potential risks. We have established emergency response plans and procedures in place to handle any potential incidents.

QUALITY:

Quality is at the heart of everything we do at El Alfy. We source the finest materials from around the world and use state-of-the-art equipment and techniques to ensure that our products meet the highest standards of quality. We also have strict quality control procedures in place to ensure that all products leaving our facility meet the required specifications, including industry standards and the customer's requirements. Our team of skilled professionals has the expertise to provide our customers with the highest quality products and services.

AL SADD SPORTS CLUB MULTIPURPOSE HALL
QATAR

ENVIRONMENT:

We are committed to minimizing the impact of our operations on the environment. We have implemented sustainable practices in all aspects of our business, including recycling, energy efficiency and the use of non-toxic materials. We are also committed to complying with all relevant environmental regulations and guidelines, and continuously looking for new ways to reduce our carbon footprint and minimize our impact on the environment.

FINANCIAL STRENGTH:

El Alfy is financially stable and well positioned to continue providing our customers with the highest quality products and services. We maintain a strong balance sheet, positive cash flow, and a commitment to fiscal responsibility. This financial strength allows us to invest in the latest equipment, technology, and training to ensure that we continue to be at the forefront of our industry. We also have a well-established financial management system that ensures that our financial performance is transparent and that we are able to make informed decisions.

Chairman and Managing Director
Eng. Ashraf El Alfy

A handwritten signature in black ink, appearing to be 'Ashraf El Alfy', written over a white background.

TECHNICAL CAPABILITY

At El Alfy, we are committed to providing the highest level of technical expertise and service to our customers. Our team of experienced professionals is skilled in project management, engineering, and digital engineering, allowing us to deliver exceptional results for a wide range of natural stone projects.

PROJECT MANAGEMENT:

Our project management team is responsible for the overall coordination and management of our natural stone projects. This includes planning, scheduling, and budgeting, as well as ensuring that all project requirements are met and that the project is completed on time and within budget. We work closely with our customers to understand their unique needs and develop a project plan that meets their specific requirements. We also have well-established risk management procedures in place to minimize the impact of any potential issues that may arise.

VIVA BAHARIYA PLOTS
Qatar

DIGITAL ENGINEERING:

Our digital engineering team is responsible for the development and maintenance of our digital systems, including our project management software, quality control systems, and other digital tools that we use to enhance our operations. We use the latest cloud-based technologies to ensure that our data is secure, accessible, and up to date. This allows us to improve our efficiency and performance and make more informed decisions.

ENGINEERING:

Our engineering team is responsible for the design and development of our natural stone products and services. They use the latest technologies and techniques to ensure that our products meet the highest standards of quality and performance. We also have a strong focus on innovation and continuously researching new materials, processes and technologies that can improve our products and services.

SUPPLY CHAIN CAPABILITY

El Alfy is a leading natural stone manufacturer and supplier, known for its exceptional supply chain management. Our supply chain processes are designed to ensure that we consistently provide our customers with the highest quality natural stone products and services.

SOURCING:

We have established relationships with reputable natural stone quarries and suppliers from around the world, ensuring that we have access to the finest materials for our products. Our team of experts carefully evaluates the quality and consistency of each source to ensure that we only use the best materials for our products.

LOGISTICS:

We have a well-established logistics network that allows us to efficiently transport our natural stone products to our customers. Our logistics team works closely with our suppliers and customers to ensure that our products are delivered on time and in perfect condition.

BURJ KHALIFA OLD TOWN AREA
DUBAI

INVENTORY MANAGEMENT:

We employ advanced inventory management techniques to ensure that we always have the necessary materials on hand to meet the needs of our customers. Our inventory management system allows us to track the availability of our products and to quickly respond to changes in demand.

QUALITY CONTROL:

We have strict quality control procedures in place to ensure that all of our natural stone products meet the highest standards of quality. Our team of experts carefully inspects each product before it leaves our facility to ensure that it meets our customers' requirements and industry standards.

The Expo Dubai Sustainability Pavilion is a remarkable structure that showcases the latest in sustainable design and technology. The pavilion's exterior is clad in a unique material made from a mixture of recycled plastic and desalinated seawater, while the interior is adorned with a variety of natural finishes, including marble and wood. The flooring is made of high-quality, durable marble in a variety of earthy tones, including beige, brown, and gray. The cladding of the interior walls is made of white marble, giving the space a clean, modern look, while the bathrooms feature elegant marble tiles in shades of gray and black. The use of natural materials throughout the pavilion reflects the commitment to sustainability and environmental responsibility.
